Angus Barn Water Efficient Urinal
Water-Saving Dual-Function Handle

UP for #1 (liquid waste)

Coated to protect against germs

DOWN for #2 (solid waste)

By installing this water-saving handle with dual-function flush, this facility has demonstrated its commitment to protect and preserve the environment. For the system to work, we need your help. Please take a look at the diagram above and push the handle in the direction which best suits your needs. With your assistance, we can do our part to conserve this precious resource.
