

Every Drop Counts

Water-Saving Actions:

- Check, report and repair leaks quickly
- Turn off water-using equipment when not in use
- Don't use a hose as a broom - sweep first, use "dry clean-up"
- Flush toilets and urinals only when needed
- Use lavatory sinks / washbasin efficiently
- Recycle or reuse process water wherever practical
- Use automatic shut-off nozzles
- Minimize landscape watering
- Review cooling tower and boiler blowdown practices
- Use efficient process rinsing techniques, countercurrent, spray, etc.
- Conserve water at home too
- Be creative - work together !

"When the well is dry, we know the worth of water."

Benjamin Franklin
